(Hint: He's the one next to the marketing director.)

Today, more accountants, marketing directors and construction workers are serving in uniform than ever before. In fact, more than 50 percent of today's military is made up of members of the Guard and Reserve. Which means people from all walks of life are even more relied upon to make up our armed forces. So if you employ members of the Guard and Reserve, please give them the freedom to protect ours.

(And, by the way...the marketing director is next to the schoolteacher.)
